SOURCE EVALUATIONS ARE DEFINITIVE APPRAISAL OF CONTENT IS TENTATIVE.

[REDACTED] a list of radar components for the Nysa and Son-4 which are imported from the USSR, East [REDACTED] Germany,

25X1

Radar Production

2. Following is a list for the production plan of radar sets for the period 1956-1959.<sup>1</sup>

- a. 1956 - 10 Nysa, 10 Son-4
- b. 1957 - 15 Nysa, 15 Son-4
- c. 1958 - 20 Nysa, 15 Son-9a
- d. 1959 - 20 Son-9a.

3. Radar components are mainly imported from the USSR, to a lesser extent from East Germany. [REDACTED] These parts are available in warehouses one year in advance of production as a rule, with the exception of heavy equipment, such as generator plants, which usually arrive for assembly near the end of the year.

25X1

Radio Production

4. The following particulars are reported concerning the production of radio transmitters:

- a. 1956 - 185 transmitters for tanks, Model RT
- b. 1957 - 500 transmitters for aircraft, Model RSI  
50 transmitters for tanks  
500 transmitters for tanks, new Model MRP
- c. 1958 - 500 transmitters for aircraft, Model RSI  
100 transmitters for tanks, Model RT  
500 transmitters for tanks, new Model MRP

W

5. The aforementioned equipment for aircraft is manufactured by the T-3 (Kasprzak) Works in Warsaw, and both types of transmitters for tanks at the T-6 Works in Dzierzonlow. Production of the new type MRP, undertaken in 1956, will reach major proportions in 1957.

25X1

1.  Comment: These statistics do not offer an accurate picture of either the implementation of the plan or of the future program. The military, for example, has only received two of the Nysa sets for 1956, and although the remainder of the quota has been completed, they probably have not yet passed field tests. Final delivery is anticipated during the first quarter of 1957.
